SUMMARY

High-impact Software Engineer with **over 3 years** of experience specializing in mobile application development (iOS, Android, Hybrid) and backend automation. Proven track record in architecting intelligent solutions using Azure OpenAI APIs and streamlining enterprise workflows via Microsoft Graph API. Expert in Python-driven data pipelines and MySQL database optimization, with a focus on delivering scalable, user-centric digital products.

TECHNICAL SKILLS

Languages	Swift, Python, Dart, PHP, Java, Objective-C, SQL (MySQL/PostgreSQL), Node.js
Frameworks	iOS SDK, Flutter, Android SDK, VB.NET, React
Cloud & AI	Azure OpenAI (Tool calling, File-based chat), Microsoft Graph API, Firebase
Tools & Others	Selenium, Git, GitHub Actions, Workflow Automation, Unity, Blender, Arduino

PROFESSIONAL EXPERIENCE

HKT Services Limited | Hong Kong

Assistant Engineer (Jan 2026 – Present)

Technical Officer (Aug 2023 – Dec 2025)

- **Spearheaded** the optimization of "RF Fighter," a mission-critical internal Swift application, improving system stability and reducing crash rates by **45%**.
- **Architected** and deployed enterprise-grade AI solutions using **Azure OpenAI APIs**, integrating tool-calling and file-based chat functionalities to accelerate internal data retrieval by **70%**.
- **Automated** high-volume data operations and SharePoint workflows utilizing **Microsoft Graph API**, reducing manual administrative tasks by **18 hours** per week.
- **Engineered** a custom Python-Selenium automation suite that replaced repetitive web-based manual entries, resulting in a **60%** increase in operational efficiency.
- **Developed** complex data visualization modules (Line/Bar charts) to provide real-time analytical insights for department-wide performance monitoring.
- **Formulated** a command-translation bridge using Python to synchronize HUAWEI UDM commands with ZTE formats for the i5GC project, ensuring **100%** accuracy in cross-vendor data processing.

Awwws World Limited | Hong Kong

Mobile App Programmer (May 2022 – Aug 2022)

- **Orchestrated** the full-scale migration of the "Awwws" flagship application from native code to **Flutter/Dart**, achieving a single-codebase solution that reduced maintenance overhead by **55%**.
- **Executed** a comprehensive UI/UX redesign, modernizing the visual interface and improving user engagement metrics by **25%**.
- **Optimized** application performance by implementing advanced Dart packages (Provider, Dio) for efficient state management and network handling.

Wetaxi Technology Company Limited | Hong Kong

Mobile App Programmer (May 2021 – Nov 2021)

- **Refactored** the "WESPEED" application by transitioning the legacy **Objective-C** codebase to **Swift**, enhancing app responsiveness and execution speed by **35%**.
- **Integrated** sophisticated geolocation and notification features, including Google Maps API and JPUSH, to provide real-time parking monitoring and user alerts.
- **Innovated** a custom **AVAudioSession** management class to resolve critical audio queuing conflicts, ensuring seamless navigation and media playback with **zero** interruption reports.

Hi Ten Technology Group Limited | Hong Kong

Programmer - Internship (Aug 2020 – Nov 2020)

- **Implemented** a real-time live streaming module using **AWS Live Streaming** Service, facilitating interactive merchant-to-user engagement within an Android **Java** environment.
- **Developed** a gamified **MySQL**-integrated video interface allowing real-time user interaction and multiple-choice engagement tools.

PERSONAL PROJECTS

TransitMate - 到咗未? (Jul 2025 – Present)

A Swift-native mobile application designed for real-time public transport monitoring.

AppStore: <https://apps.apple.com/hk/app/%E5%88%B0%E5%92%97%E6%9C%AA/id6749303291>

Project detail: <https://transitmate-abd92.web.app/instruction.html>

Dau B Memory - 兜 B 日記 (Dec 2023 – Present)

A personalized life-logging application built with Swift, currently published on the App Store

AppStore: <https://apps.apple.com/hk/app/dau-b-memory/id6476182093>

Project detail:

https://github.com/maxdu96/MyProjects/blob/main/DauBMemory/DauBMemory_README.md

EDUCATION

City University of Hong Kong

Bachelor of Science in Creative Media (2021 – 2023)

- Final Year Project: "Eden8080" – A 3D Roguelike shooter developed with Unity and Blender.
 - SIG Playful Media Showcase 2023 Outstanding Technology Application Award:
<https://playfulmedia.hk/2023/artworks-detail/game-eden8080.html>
 - Trailer: <https://www.youtube.com/watch?v=5Dsd2Sdq3mw>

Hong Kong Institute of Vocational Education

Higher Diploma in AI and Mobile Applications Development (2019 – 2021)

- Final Year Project: Online Learning Platform utilizing Google Blockly and Jetson Nano.
 - Trailer: <https://www.youtube.com/watch?v=rU7QkTcSK1E>

AWARDS & CERTIFICATIONS

- HKT Engineering Achiever Award (2023, 2024)
- PCCW&HKT Share Award Scheme (2024, 2025)
- Best Innovative Work - Dr Peter Chung Yin Lee Memorial Fund SIG Awards (2023)
- NVIDIA Deep Learning Institute - Fundamentals of Deep Learning Certification (2021)
- Grade Three, Level A - Certificate in Putonghua Proficiency Test (2019)
