Summary

- ✓ **Over 3 years** of hands-on experience in mobile application development across **iOS, Android, and hybrid platforms**, with additional expertise in **Python** development, **MySQL** database management, and integration with **Microsoft Graph API**.
- ✓ Familiar with **Azure OpenAI** APIs and their integration into intelligent app solutions.
- ✓ **Native Cantonese** speaker with strong communication skills and cross-cultural fluency.

Experience

HKT Services Limited

Assistant Engineer

01 Jan 2026 - Present

Technical Officer

21 Aug 2023 - 31 Dec 2025

- Maintained and Enhanced In-House Application:
 - Managed and resolved issues in the existing in-house application "RF Fighter" using **Swift**, ensuring smooth operation and reliability.
 - Enhanced user experience by integrating features such as **Apple Maps** and **PHP** to support both outdoor and indoor personnel.
 - Developed and implemented data visualization components (e.g., LineCharts and Bar Charts) to facilitate employee data analysis.
- Planned and managed the usage of **Azure OpenAI APIs** within the department, integrating functionalities such as tool calling, file-based chat interactions.
- Developed and automated **SharePoint** Online solutions using the **Microsoft Graph API**, enabling efficient data operations (CRUD), secure authentication via Azure AD, and streamlined workflows for document and list management.
- Contributed to the development of a **lightweight cell broadcast system** to enhance communication capabilities.
- Supported the ZTE i5GC project by developing **Python** scripts to translate and bridge HUAWEI UDM commands to ZTE formats, enabling accurate user data processing and management.
- Implemented web automation solutions using **Python** and **Selenium**, reducing repetitive manual tasks and improving operational efficiency.
- Designed and deployed **workflow automation** using **Microsoft tools**, enabling functionalities like email attachment forwarding and text content modifications.

Awwws World Limited

Mobile App Programmer

11 May 2022 - 22 Aug 2022

- Application Migration and Redesign:
 - Successfully converted the existing native app "Awwws" to **Flutter**, ensuring improved cross-platform compatibility and performance by using **Dart**.
 - Redesigned the user interface to provide a modern, user-friendly experience, enhancing the app's aesthetic and usability.
- Contributed to the development of the Awwws Biz app, focusing on enhancing business-related functionalities.
- Leveraged a variety of **Dart packages** (e.g., provider, dio, qr_code_scanner) to enhance project capabilities, improve efficiency, and support advanced functionalities.

Wetaxi Technology Company Limited

Mobile App Programmer

27 May 2021 - 30 Nov 2021

- Rewrote the existing "WESPEED" app from **Objective-C** to **Swift**, modernizing the codebase and incorporating new functionalities such as **Google Maps** integration, **JPush notifications**, and parking monitoring to enhance overall usability.
- Designed and developed a completely new user interface using **Storyboard**, significantly improving the app's visual appeal and user experience.
- Custom AVAudioSession Class Implementation:
 - Developed a **custom AVAudioSession class** to effectively handle queuing and resolve issues caused by excessive notification alerts.
 - Ensured uninterrupted navigation and media playback functions by addressing interruptions and mitigating volume level-related impacts.

Hi Ten Technology Group Limited

Programmer - Internship

3 Aug 2020 - 11 Nov 2020

- Designed and implemented a real-time live streaming feature using **AWS Live Streaming Service** for an **Android Java** app, enabling seamless communication between merchants and users through live broadcasts.
- Developed a video live streaming feature integrated with a **MySQL database**, allowing merchants to present multiple-choice questions to users.
- Enabled interactive functionality for users, who could select answers directly through the video interface, mimicking the engagement style of the popular game show "Who Wants to Be a Millionaire".

Personal Project

Dau B Memory - 兜 B 日記

27 Dec 2023 - Present

Swift native app
